NOTICE

Re: 2022 Street Project – Maple Street Paving and Reconstruction

Dear Maple Street and affected neighboring street resident:

Riteway Sealing and Paving, Inc is scheduled to begin this portion of the Borough's 2022 Streets Program in your area the week of October 10th. The construction will begin on that Monday, pending favorable weather conditions, and will most likely extend into the following week, with no other unforeseen delays. The contractor is required to complete the entire project once they arrive on site. The scheduled work hours are from 7:00 AM to 5:00 PM on weekdays. ***There will be no work scheduled on the weekend.***

The work on Maple Street includes a combination of milling the existing macadam surface 1.5" in depth, full depth reconstruction in some areas and repaving between 8th and 10th Avenues. The intersection with 8th Avenue will be totally reconstructed.

The roadway will be closed between 8th Avenue and 10th Avenue during the day for the Maple Street reconstruction portion and from Myotis Drive to Maple Street and Maple Street to Cherry Street for the reconstruction of the 8th Avenue intersection to Maple Street. Access will be limited to the residents during day and there will be some delays at times. The street will remain accessible to school buses, mail carriers and emergency vehicles. The contractor will do their best to accommodate access to and from the area during the construction project. ***Once the work begins, we ask that you do not park on any nearby streets until the project is completed, except on weekends.***

Where this work affects existing driveways, a 'tie-in' joint is required at the street. All joints will be properly sealed by the contractor.

The contractor may also ask you if they can remove your mailbox on the day that they are working in front of your house, so they do not damage it with the large equipment.

We appreciate your patience during the project.

If you have any questions, please contact the Borough Office at (570)743-7565.
